ART + SOCIAL

VANCOUVER

## Welcome to Raw Canvas.

If you've already heard about us, you know we do things a little bit differently. We have a fresh, innovative and unique approach to the restaurant industry... we prefer to call ourselves "an extraordinary social destination". In a nutshell, Raw Canvas is a place to eat, drink and make art.

This experience lends itself perfectly to building a corporate team by helping people approach things positively and creatively.

Investments in staff morale are of increasing importance in today's rapidly evolving workplace. The confidence of your team will always play a significant role in your company's productivity levels and profitability. Step out of the box and come down to Raw Canvas where each team member can throw on a smock, grab a brush and get messy.

As non-traditional as it sounds, group art will help create synergy and help teams find creative ways to work and problem solve together. Raw Canvas offers a local, unique and economical solution to enhance unity in day-to-day business. Whether you need your team to work smarter, more creatively or just differently, we offer theme packages that will bring people together and help each person realize the importance of what their presence adds to the team.

The Raw Canvas team-building experience has been the catalyst for many revelations for many businesses. We all know that a positive environment makes the work place not only more pleasant, but also more productive. ## BUILDING BLOCKS

Every business is built with certain fundamental "building blocks" (communication, trust, customer service, productivity, efficiency, creativity, etc.). Choose the "building blocks" that are most relevant to your team. Each canvas will represent a different "building block" that you have chosen. Then each team member will have a chance to paint on each canvas. The resulting collaborative pieces will reflect how each member has contributed to the expression of the "building blocks" of your business. Take the canvases back to the office and hang them wherever you are working to manifest that "building block".

Minimum 4 people medium canvas (upgrade available)

Includes:

canvas, paint, tapas, dessert, and 2 drinks per person.

## THE GROUP OF SEVEN

In honour of the Group of Seven, Raw Canvas invites your team on a journey out of the office and into the sun. As a team you will arrive at your choice of one of seven parks located in our beautiful city to paint the landscape around you. In groups, you will be side by side with your peers, each enjoying a different view of the scenery. Paint what you see, and then work together to make each painting a continuation of your neighbours'.

When you are finished, you will put the paintings together to form a complete panoramic masterpiece of the landscape that surrounds you.

Minimum 4 people  
small canvas (upgrade available)

## THE JACKSON POLLOCK

Pure hilarity.  
Follow in the footsteps of the great American artist Jackson Pollock as we get together for an afternoon of abstract expression. Throw your canvas on the floor, let go of your inhibitions, and drip, dribble, and drizzle yourself a masterpiece. Just don't wear your good shoes.

Minimum 4 people  
small canvas (upgrade available)
